

Medical Physics students at the University of Manitoba, a CAP Departmental Member

What is the CAP?

The Canadian Association of Physicists (CAP) is the Voice of Canadian Physics.

We are dedicated to highlighting the achievements in Canadian physics and pursuing scientific, educational, public policy and communication initiatives that enhance the vitality of physics and physicists in Canada.

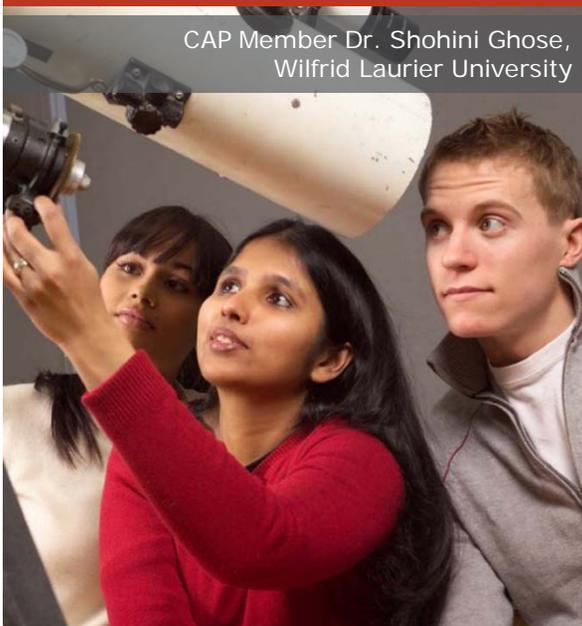

The CAP was incorporated as a non-profit organization in 1945 and now represents more than 1,700 physicists working in academia, government, and industry from coast to coast.

Membership rates and forms at: www.cap.ca

Membership supports your career, profession, and the ongoing advancement of Canadian physics.

Why you should join the CAP

Stay Informed and Connected

- CAP News Bulletin/News Flash
- *Physics in Canada* (PiC) Journal
- CAP member directories
- Community news and events
- Cross Canada physics network

Dr. Arthur McDonald, Queen's University
Co-recipient of 2015 Nobel Prize in Physics
CAP member since 1969 when he joined as a graduate student

Advocate in Support of Research and Teaching

- Federal and provincial government advocacy
- Ongoing liaison with granting and funding agencies
- Industry and institutional partners engagement in support of research
- Reciprocal relationships with international societies

Engage with Professional Development and Recognition

- CAP Congress & Herzberg Lecture
- P.Phys. accreditation
- Researcher awards and medals
- Career listings
- CAP-sponsored events
- CAP Lecture Tour
- Physics instructor resources
- Student Awards and Teaching Medals

Physicists from across the country meet at the CAP Congress to network and become informed on latest advancements in Canadian physics.

Build a Stronger Physics Community

- Support of high school and CÉGEP educators
- Resources for high school and CÉGEP students and parents
- Public awareness of physics activities and impact
- Engagement with physicists in non-academic sectors
- Partnerships with research institutes to support outreach initiatives
